# TO OUR CUSTOMERS

Our aim is to supply the finest stock of plants and shrubs. We at Springbrook Gardens appreciate the confidence you show by placing your orders with us and we will do our utmost to warrant that confidence.

Planting seasons are of necessity very short and we **GREATLY APPRECIATE RECEIVING ORDERS IN ADVANCE**, either for later shipment or to be called for. We ship promptly at planting time or on any date specified. All plants are carefully packed and should be removed from the box and planted without delay.

The prices named in this list cancel all previous lists.

**GUARANTEE.** We guarantee any plant we sell to be true to name and any Nursery stock that may prove untrue to name we will replace or refund original amount paid. If plants are received in good condition by the customer our responsibility ceases. We cannot replace stock lost by causes over which we have no control. Claims for any cause must be made within five days after receipt of stock.

**SHIPPING.** Please give shipping instructions. If no instructions are given we will forward to the best of our judgment, without assuming responsibility. Plants become your property upon delivery to transportation company and we cannot be responsible for loss, damage or delay in transit. We ship Motor Freight only at customer's request.

**PAYMENT IN FULL** should accompany all orders. Please send check, money order or bank draft. Currency should be sent only by registered mail.

We do not make C. O. D. shipments. If credit has not already been established with us, kindly send satisfactory references.

Your order will be acknowledged when received.

Visitors are welcome at all times

**GROWING PERENNIALS**

The soil should be well worked in specially prepared beds 2' to 2½' deep with good drainage. Plant food and plenty of humus are necessary ingredients for successful perennial flower growing. Most perennials respond best if planted in a sunny location.

The average planting distance for perennials is 1 foot apart. Vigorous growers like peonies and mallows require as much as 3 feet.

Iris should be planted with the roots below the surface of the ground and the rhizome just on the surface.

Peonies should be planted with the tips of the buds just below the surface of the ground (about 1"). Peonies will not bloom well if planted too deeply or if deprived of ample plant food.

Plants, on which the leaves spring from a crown, should be planted with this crown just at the dirt line.

Plants with a fleshy root such as Hollyhocks, should be planted with the tap root straight down and the bud just below the surface of the dirt. In all planting, spread the roots out naturally and do not crowd. Bring the soil in contact with all roots and press firmly. Water thoroughly.

**Bokhara**

**CHRYSANTHEMUMS:** We sell Mums in the Spring only in 2¼" Pots. For a gorgeous display in the Fall or for cutting bouquets, plant Chrysanthemums in the Spring. Partial disbudding can do wonders to improve size and quality of blooms. As soon as the buds have separated enough so that individual buds can be removed, remove all but four or five buds, leaving the largest and best.

## OUR AIM

We believe that the best way to build a lasting and pleasant business is to produce the best plants possible and to sell them at a reasonable price.

When you receive a shipment of plants from **SPRINGBROOK GARDENS, INC.** they will be carefully packed, all of an even grade of the very finest quality, freshly dug from the fields. Throughout the flowering period we go through our nursery removing any plant that is not true to name. At digging time when your order is filled, we use only plants which come up to our own exacting standards.

To maintain high standards, the income per acre is reduced but we know that prices must be reasonable to encourage larger plantings of our products. We depend a great deal on our customers recommending our products to others who are interested in flowering plants.

Your continued good will is essential to our continued success.
